

Bob Durfey >>

Spent over 30 years as a Commissioned Officer in the U.S. Coast Guard, piloting ships, flying helicopter rescue missions, mentoring and equipping leaders to meet urgent national level challenges.

Bob is a highly decorated, successful servant-leader who is known for his ability to integrate his faith into all aspects of work & leadership. Although a graduate of Harvard who had held two major commands, overseeing thousands of people and hundreds of millions of dollars in assets, Bob began to sense what he had experienced and learned through his life was for a much higher purpose than just being a senior military officer. Approaching “retirement” he sought out ways to use his skills and strengths, founding a Leadership Consulting Company. The Lord had other ideas and used a Muslim landlord to get the book HALFTIME into Bob’s hands. Excited and greatly encouraged by the book and the Halftime staff, Bob became passionate about communicating the life principles contained in the Halftime message. Helping International and U.S. city leaders create teams to help those in Halftime has now become the key focus of his consulting work.

I’ve spent the last dozen years or more working with those who anyone would define as VERY “successful.” They have done everything right by the world’s standards. Many have even sacrificed personal financial gain to serve their country and humanity. Their epitaphs will indeed be impressive.

The problem is, many of these “successful” people often already feel DEAD inside. Something vital is missing. In all their great DOING, they have a nagging suspicion that somehow they “missed it.”

That unexplained nagging feeling is part of the HALFTIME experience. It is the Creator’s way of calling His creation to a more focused life of purpose and joy. The question is whether one will have the courage to FOLLOW those “whispers” in the heart !!”

Bob and his wife of 30 years, Carolyn, live near Boston, Massachusetts. Their family continues in the “rescue” business. Carolyn and their daughter Sarah are passionate in the fight against Human Trafficking. Their son Joe is an officer in training at the U.S. Coast Guard Academy.
